

3.2 Generative AI Features In Adobe Express

In the previous section, you familiarized yourself with the 'Generative AI' technology and understood the buzz around it, and found out about the Generative AI image editing tools such as Adobe Firefly, and its instance within Adobe Express for image generation and editing.

In this section, we will dive into the exciting world of Adobe Express and uncover some incredible features like Generate Text Effects, Generate Image, Insert Object and Generate Template. So, get ready to add a splash of creativity to your projects and bring your ideas to life like never before!

Learning Outcomes:

In this section, you will:

- Get introduced to the Generative AI features of Adobe Express.
- Understand the Generate Image (text to image), Insert objects (generative fill), Generate Template and Generate Text Effects features.
- Learn how to access these features on Adobe Express.

Adobe Express uses AI to provide design recommendations based on your project type, style, and content. This helps users create visually appealing designs more efficiently.

Adobe Express offers several Generative AI features that enhance creativity and streamline the design process. Here are some key features:

Generate Text Effects: Users can apply AI-generated text effects that automatically adjust to fit the design's style and theme, making the text more engaging and attractive.

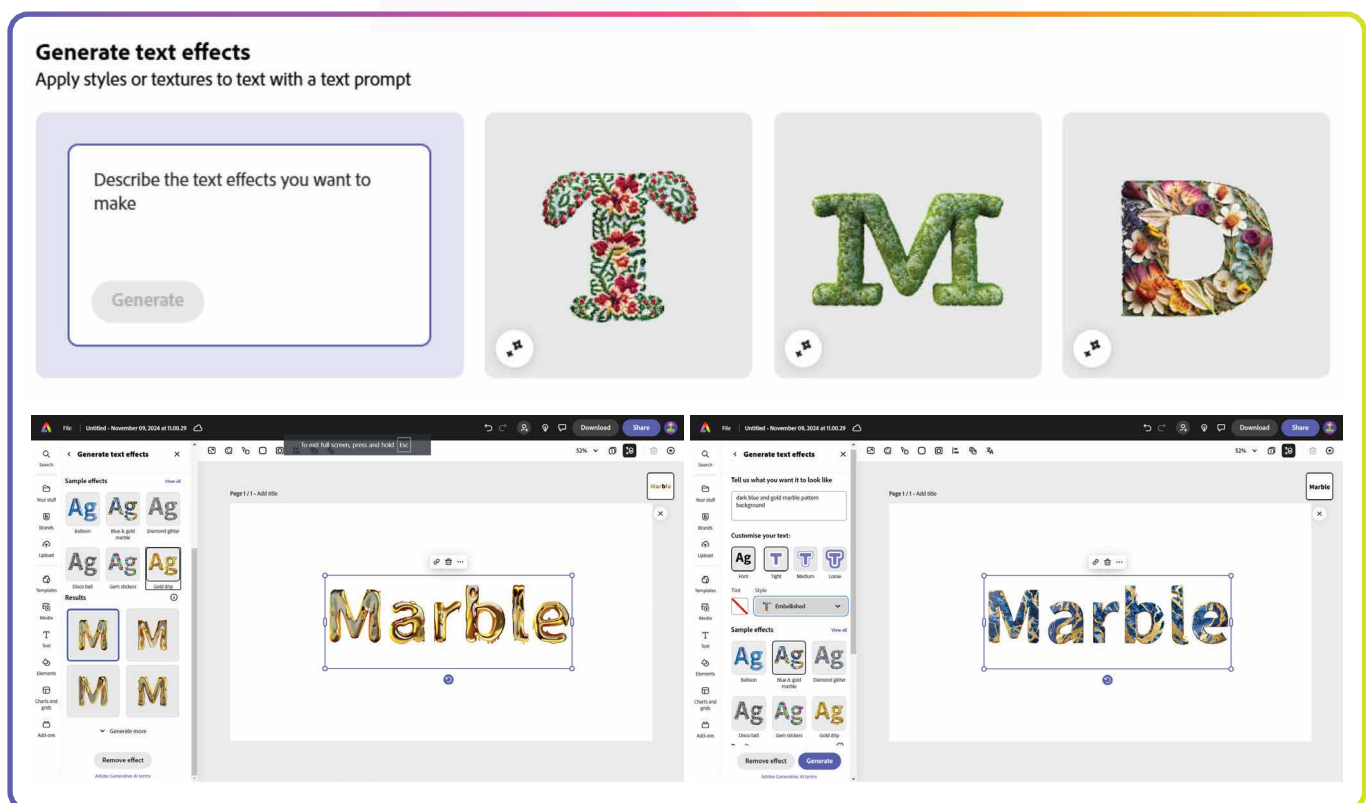

Image Generation: Use Generative AI to create images from simple text prompts.

Other Content Generation: Adobe Express can generate content ideas and templates based on user inputs, allowing for the quick creation of social media posts, flyers, and more.

Branding Tools: The AI can help maintain brand consistency by suggesting colors, fonts, and logos that align with the user's established brand guidelines.

Tip for the Teachers:

This section consists of five components. The teachers are requested to direct the students towards the online course on 'Digital Creativity and AI Skills (Level-1)' to complete the various components of this skill subject.

1. **Ignite:** The students are required to login into the online 'Digital Creativity Skills (Level-1)' course and click on Section 3.2 to watch the video.
2. **Skill Check-up:** The students are requested to finish the knowledge check-up in the online course.
3. **Creativity Showcase:** For this section, the teachers are requested to assist the students to login into their Adobe Express school accounts and guide them with the steps of the activity.
4. **Synergize:** A collaborative activity to have fun whilst creating and learning. Divide the students in groups and collaborate through Adobe Express school accounts.
5. **Explore:** To learn more about Generative AI by accessing the resources provided.

Let us take a deep dive into the world of Generative AI and various AI tools. Scan the QR code provided above to watch the video on "Generative AI Features in Adobe Express".

Skill Check-up

Assess your learning

QR
HERE

Tip for the Students:

Below is the exercise provided for your classroom, you are requested to complete this exercise online as guided by your teacher. Scan the QR code for Skill-check up.

Select the right option out of those given below:

1. **Which feature of Generative AI tools in Adobe Express allows users to automatically generate new images based on given inputs?**
 - a) Image Editing
 - b) Text Effects
 - c) Template Customization
 - d) Image Generation
2. **What does Insert Object feature allows you to do in Adobe Express?**
 - a) Fill shapes and spaces with unique patterns and textures
 - b) Fill text with gradient colors
 - c) Fill backgrounds with solid colors
 - d) Fill shapes with predefined images
3. **What is the purpose of Generative Text Effects in Adobe Express?**
 - a) To convert text to images
 - b) To add personality and flair to text
 - c) To change the font size of text
 - d) To edit the alignment of text
4. **How can you use Generate Image feature in Adobe Express?**
 - a) By importing images from your computer
 - b) By typing text and choosing a style
 - c) By selecting pre-designed images
 - d) By copying and pasting text from a document
5. **What feature of Adobe Express allows you to fill shapes and spaces with unique patterns and textures?**
 - a) Text to Image
 - b) Generative Fill/ Insert Objects
 - c) Text Effects
 - d) Image to Text

Creativity Showcase

Hone your creative skills

Tip for the Teachers:

This activity will be performed on Adobe Express Students' School Account. Upon completing the activity, the students will be required to copy the URL and paste it at the provided location under the online course and submit it.

Tip for the Students:

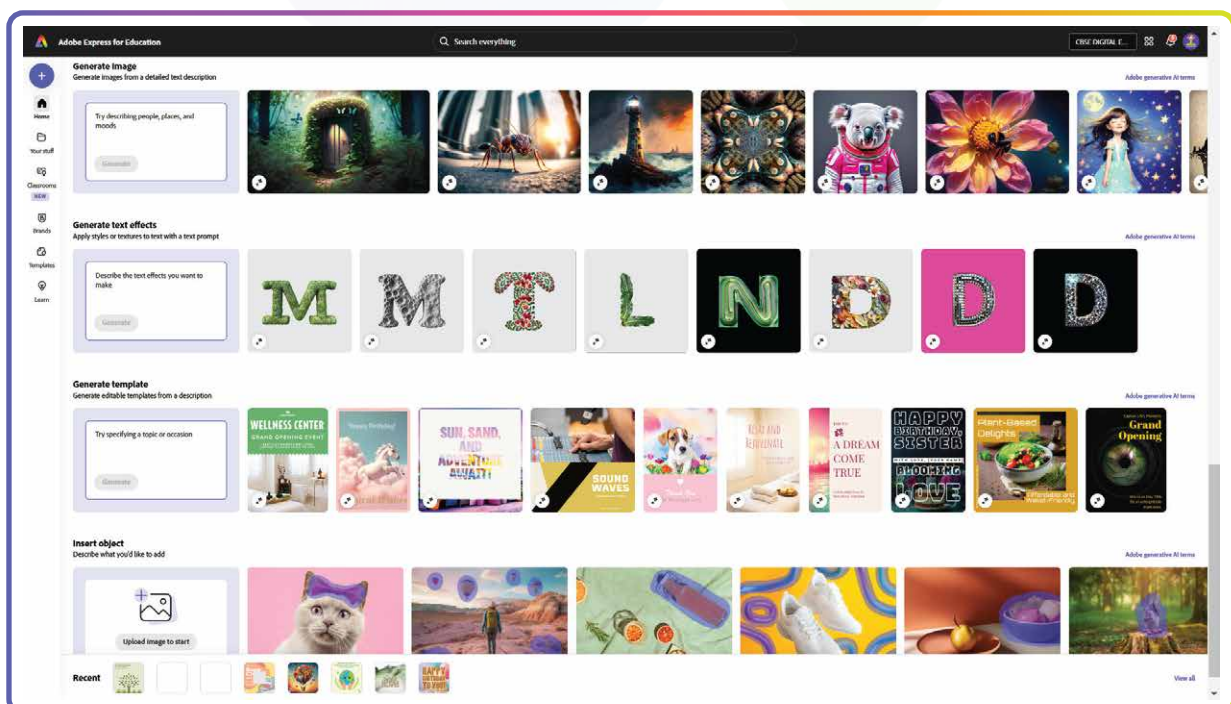

This is an individual activity. Each student will have to login into their Adobe Express school account. Do not forget to submit the assignment to complete the course.

Activity 3.2.1 : Playing with Generative AI features of Adobe Express.

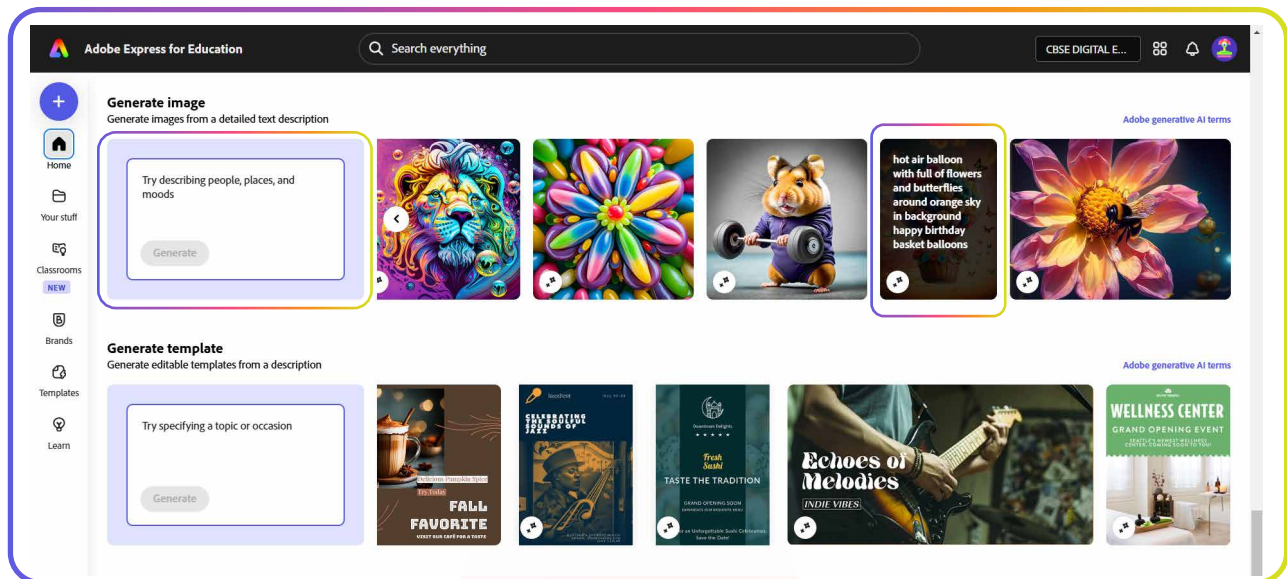

Objective: To explore and experiment with the features of Generate Image, Insert Object, and Text Effects in Adobe Express by creating a unique typography design.

Instructions:

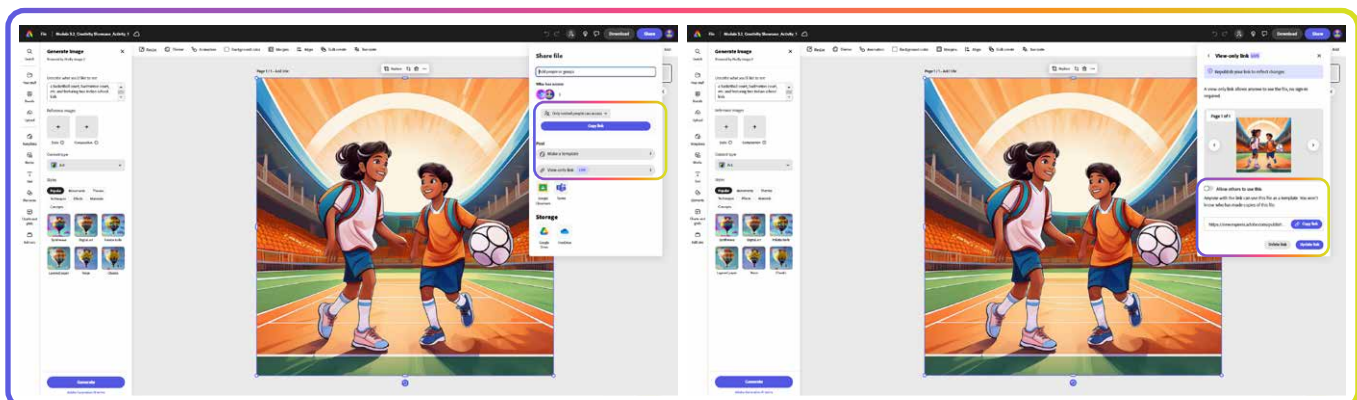

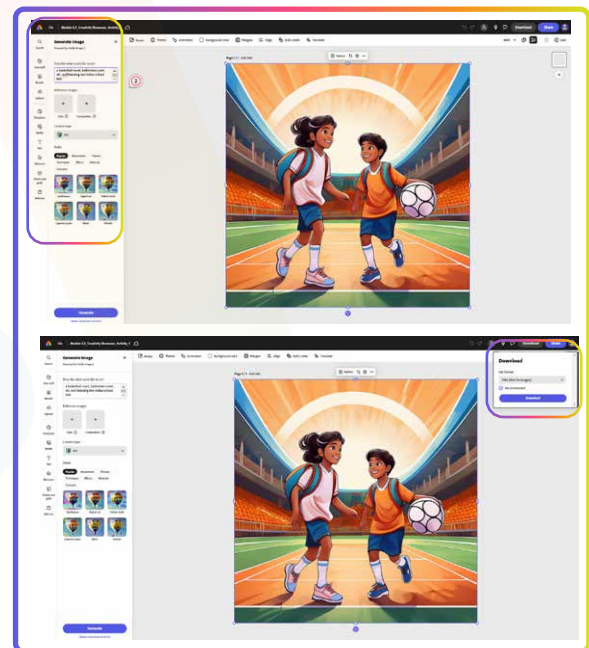

- Login into your Adobe Express School account. Scroll down the dashboard to find various features of Generative AI.

- Upon hovering over the various features you will notice the text prompts for those particular images.
- Let us create an image of a character from our grade 6 English or Hindi book. Click on the empty space provided under the 'Generate Image' section and describe a character from your English or Hindi book. Be as descriptive as possible. Press enter and wait for the magic to happen.

- Choose from the best options provided. Experiment with different content types, styles, and colors to enhance the visual impact.
- Once you are satisfied by your creation, add text and a title to this image.
- Now click on **download** to download the character onto your computer.
- You can also click on '**Share**', '**View only Link**' and '**Create a Link**' to publish your character.
- **Copy the URL and paste it onto the online learning platform and hit submit.**

Synergize

Collaborate and create

Tip for the Teachers:

This group activity will be performed on Adobe Express Students' School Account. Upon completing the activity, the students will be required to copy the URL and paste it at the provided location under the online course and submit. You are requested to divide the students in groups of 3.

Tip for the Students:

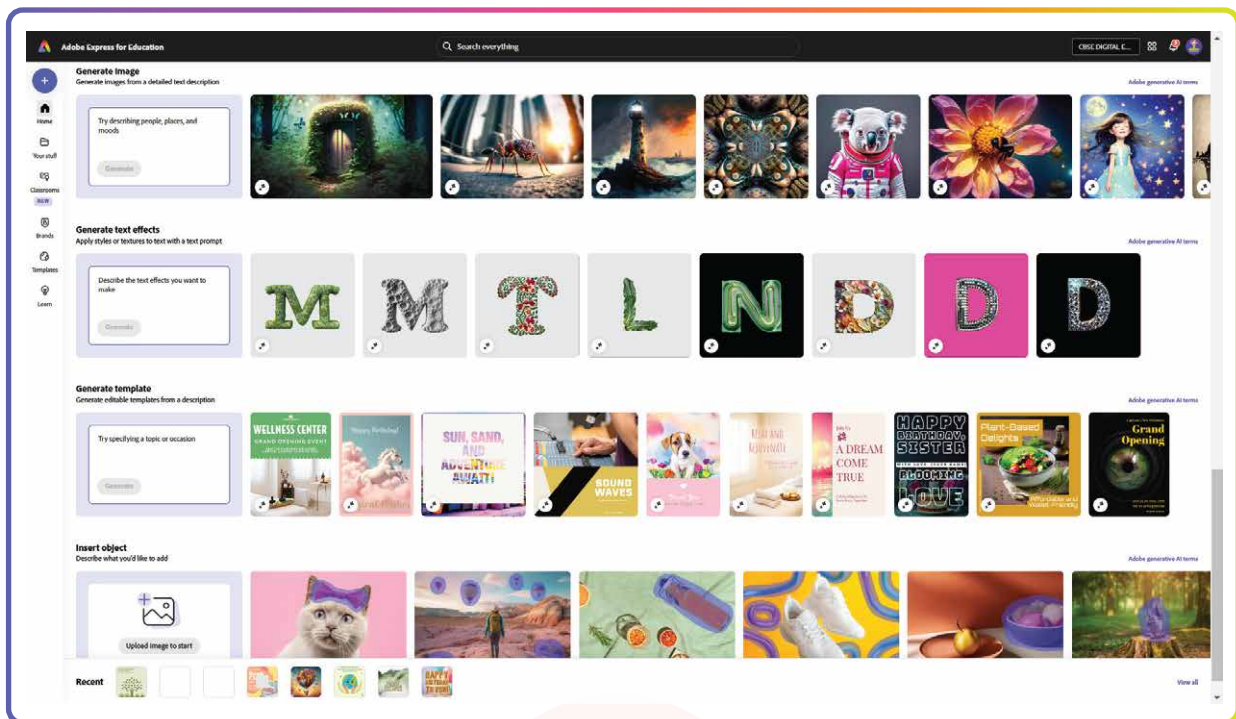

This is a group activity with two more collaborators. Your teacher will guide you to add collaborators into your assignment on Adobe Express. Each student will have to login into their Adobe Express school account. Do not forget to submit the assignment to complete the course.

Activity 3.2.2 : Generative AI Art Showcase

Objective: To collaborate with peers in exploring and showcasing the creative possibilities of Generative AI image editing tools within Adobe Express.

Instructions:

- Form small groups of learners, ensuring each group has access to Adobe Express School account on their devices.
- Assign a theme or concept related to Generative AI image editing, such as "Futuristic Landscapes/ vehicles," "Dreamlike Portraits" or "Fantasy Worlds".
- Collaborate with your group members to brainstorm ideas and develop a cohesive vision for your AI art showcase.
- Explore the Adobe Express Generative AI tools and experiment with different AI-enhanced effects and filters to bring your group's vision to life.

- Use Generate Image feature and describe the scene that you would like to create in consultation with your peers. Select the output that is closest to your imagination.
- Ask your peers to add elements around it to add to the overall Digital Art.
- Collaborate on integrating the individual artworks into a unified showcase, considering factors such as composition, color scheme, and overall aesthetic coherence.
- Once the AI art showcase is complete, download, and share.
 - Now click on '**Download**' to download the character onto your computer.
 - You can also click on '**Share**', '**View only Link**' and '**Create a Link**'.
 - **Copy the URL and paste it** onto the online learning form and hit submit.
- Reflect on your collaborative experience and the creative possibilities of Generative AI image editing tools like Adobe Firefly within Adobe Express. Discuss how working together with peers enhanced your understanding and appreciation of digital art and technology.

Activity 3.2.3 : Playing with Insert Object

Objective: Adding elements to an existing image using Generative AI.

Instructions:

- Form small groups of learners ensuring each group has access to Adobe Express school account on their devices.
- You will be exploring the features of Insert Object in this activity.
- Ask your teacher to allocate a scene to each group. There are various scenes to choose from, these are defined below.

Use any of the remixable template for this activity:

Scene-1 : Add animals into the jungle using Insert object.

<https://new.express.adobe.com/publishedV2/urn:aaid:sc:VA6C2:7e925b32-0f95-4976-a6cb-c07d08ed0347?promoid=Y69SGM5H&mv=other>

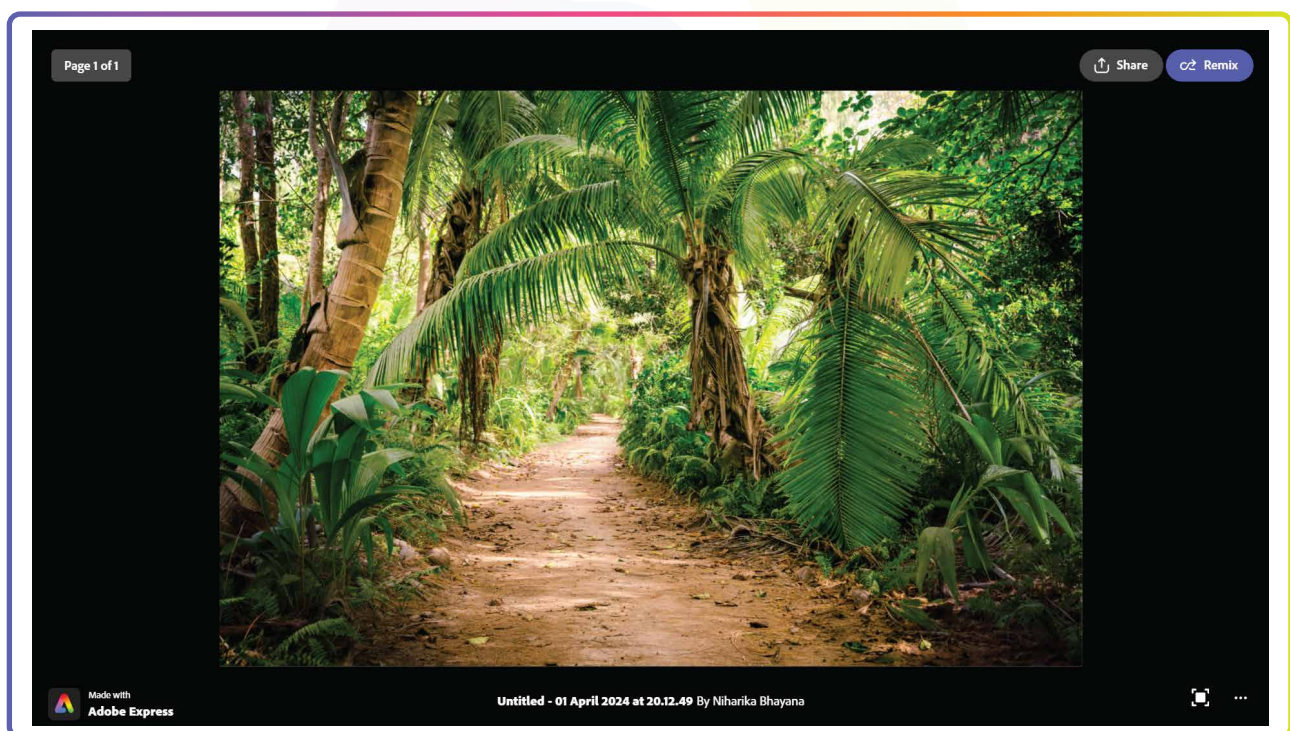

Scene-2 : Add sea creatures using Insert object.

<https://new.express.adobe.com/published/urn:aaid:sc:VA6C2:02c5843a-4fcc-4483-9556-6cc8ff7a390e?promoid=Y69SGM5H&mv=other>

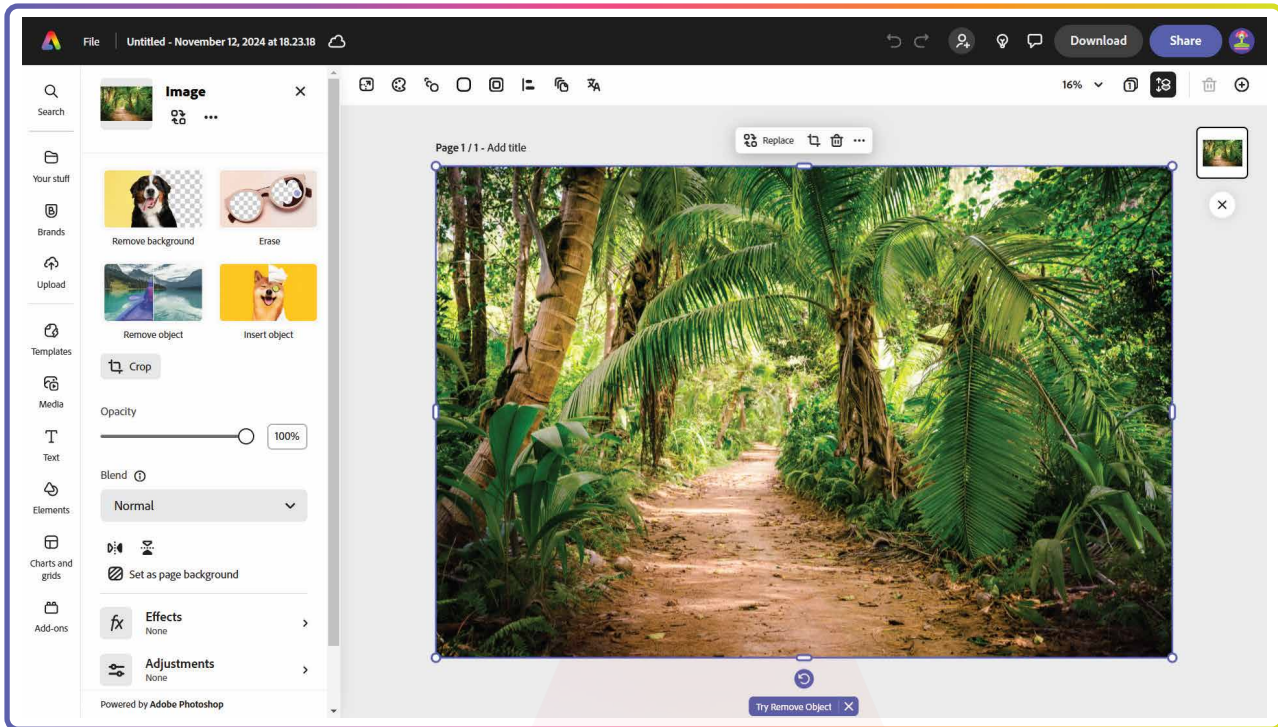

Scene-3 : Add planets and celestial objects using Insert object.

<https://new.express.adobe.com/published/urn:aaid:sc:VA6C2:56f0db7b-0edc-41a4-a25f-263d0ead84fb?promoid=Y69SGM5H&mv=other>

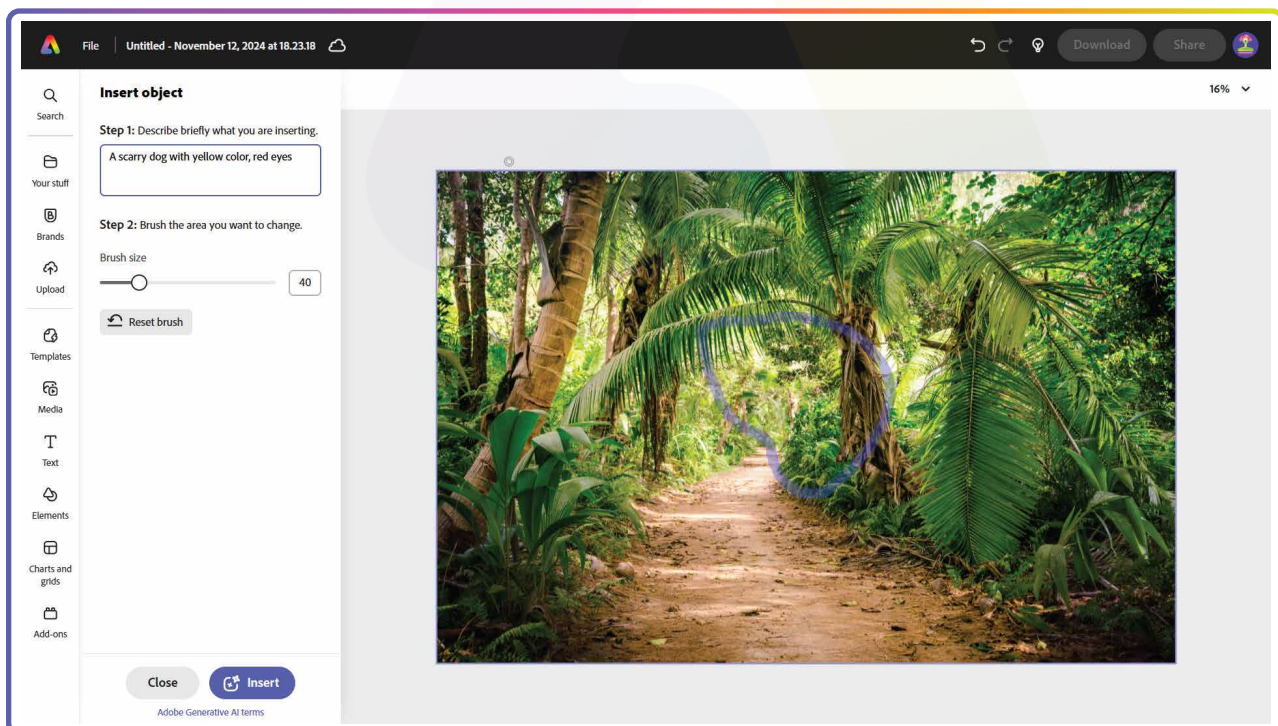

- Choose any of the scenes and start creating.

- Click on the image to select the Image tools.
- Select 'Insert Object' from the tools.

- Now highlight a section of the image where you want to add more images.
- Describe the component in the image that you want to add and click on insert.

- Let your collaborative group also add more elements.
- Once completed, You can also click on '**Share**', '**View only Link**' and '**Create a Link**' to publish your creation.
- **Copy the URL and paste it** onto the online learning platform and hit submit.
