

3.4 Text effects using Generative AI in Adobe Express

In the previous section, you familiarized yourself with the 'Generative AI' technology and understood the buzz around it, and found out about the Generative AI image editing tools such as Adobe Firefly, and its instance within Adobe Express for image generation and editing.

Learning Outcomes:

In this section, you will:

- Explore the feature Generate Text Effects of Generative AI.
- Customise the predefined styles.
- Apply styles and textures to text using prompts.

Tip for the Teachers:

This section consists of five components. The teachers are requested to direct the students towards the online course on 'Digital Creativity and AI Skills (Level-1)' to complete the various components of this skill subject.

1. **Ignite:** The students are required to login into the online 'Digital Creativity Skills (Level-1)' course and click on Section 3.4 to watch the video.
2. **Skill Check-up:** The students are requested to finish the knowledge check-up in the online course.
3. **Creativity Showcase:** For this section, the teachers are requested to assist the students to login into their Adobe Express school accounts and guide them with the steps of the activity.
4. **Synergize:** A collaborative activity to have fun whilst creating and learning. Divide the students in groups and collaborate through Adobe Express school accounts.
5. **Explore:** To learn more about Generative AI by accessing the resources provided.

Tip for the Students:

Below is the exercise provided for your classroom, you are requested to complete this exercise online as guided by your teacher. Scan the QR code for Skill-check up.

Select the right option out of those given below:

1. **What is the benefit of using prompts to apply styles and textures to text in Adobe Express?**
 - a) It provides with predefined text styles
 - b) It allows for easy alignment of text
 - c) It generates unique styles and textures based on user input
 - d) It adds filters to the text
2. **What is the main advantage of exploring text effects with Generative AI in Adobe Express?**
 - a) It limits creative possibilities
 - b) It allows for quick and easy text editing
 - c) It provides a wide range of customization options
 - d) It only works with specific fonts
3. **Which panel is used to access text effects in Adobe Express?**
 - a) Effects Panel
 - b) Shapes Panel
 - c) Shadows Panel
 - d) Animation Panel
4. **How was the visibility of the text on a dark background enhanced in the project?**
 - a) Changing font size
 - b) Adding a shadow effect
 - c) Applying a white color
 - d) Increasing saturation

Creativity Showcase

Hone your creative skills

Tip for the Teachers:

This activity will be performed on Adobe Express Students' School Account. Upon completing the activity, the students will be required to copy the URL and paste it at the provided location under the online course and submit it.

Tip for the Students:

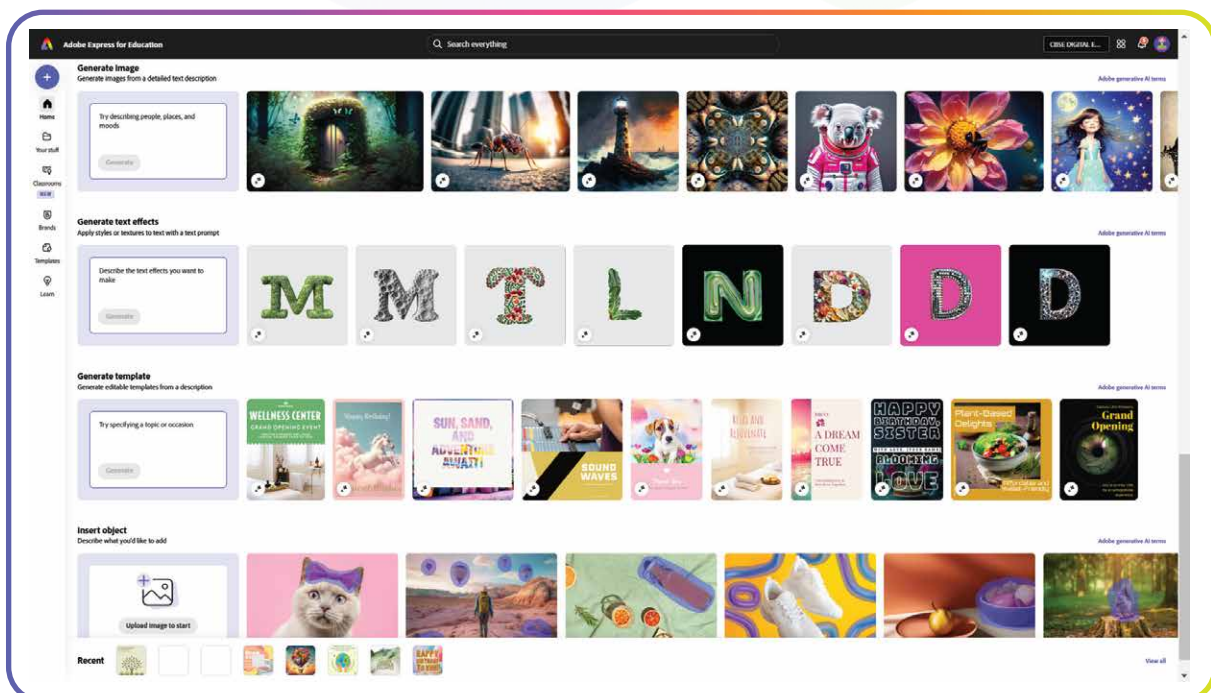

This is an individual activity. Each student will have to login into their Adobe Express school account. Do not forget to submit the assignment to complete the course.

Activity 3.4.1 : Text Effects Exploration with Adobe Express

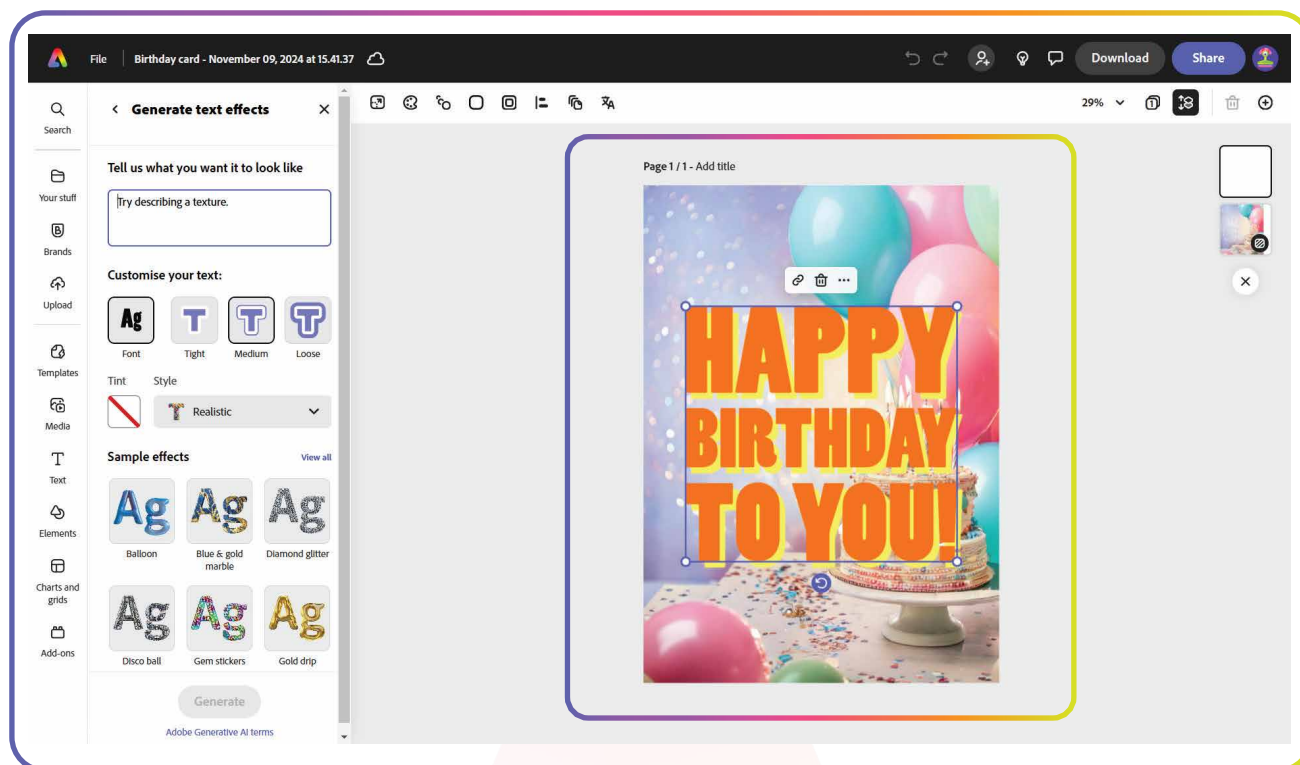

Objective: To create text effects generated by AI and apply styles and textures to text using prompts.

Instructions:

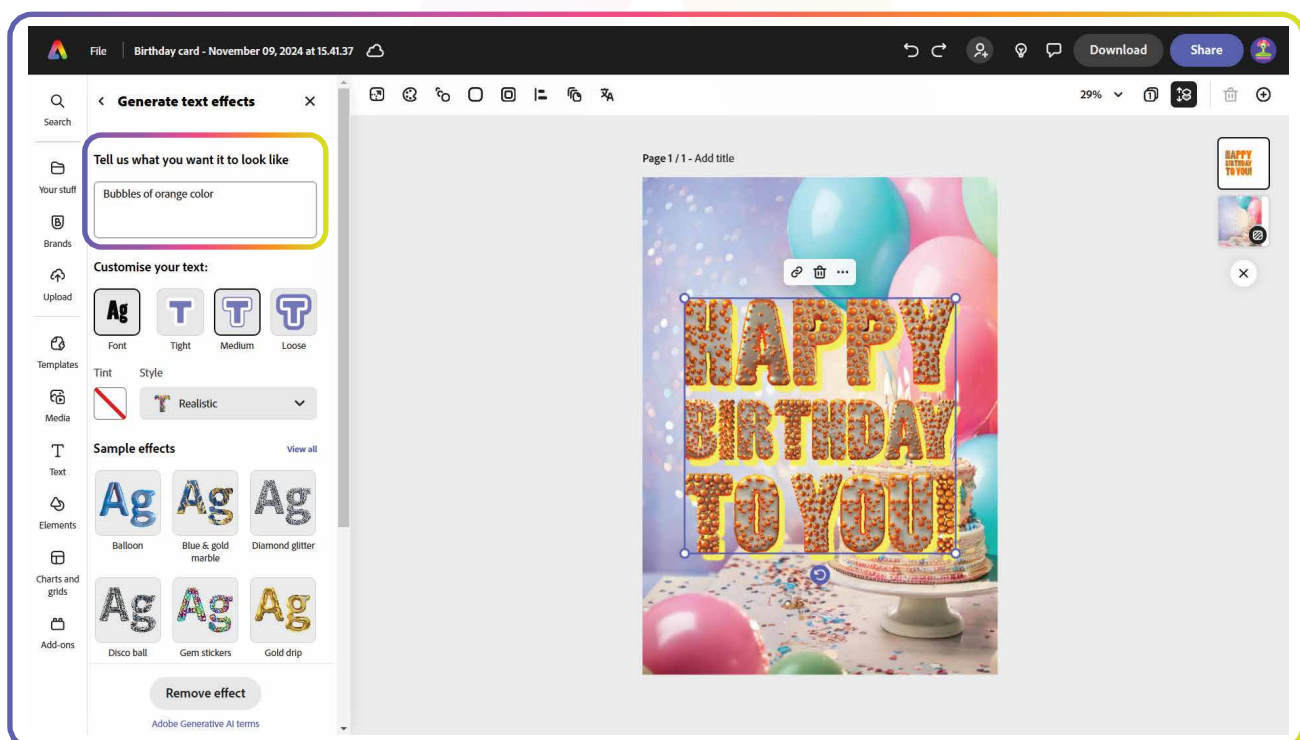

- Login into your Adobe Express Educational Accounts to complete this activity.
- Open the text editing software on their computers and input a piece of text.

- Create an invitation card for a birthday party and use images from media and text effects on this invitation card that reflects the theme of the party.

- Experiment with font styles, colours, and additional effects to complement the chosen prompt. Here, the prompt is: Bubbles of orange color

- **Download** your work.
- You can also click on '**Share**', '**View only Link**' and '**Create a Link**' to publish your creation.
- **Copy the URL and paste** it onto the online learning platform and hit submit.

Synergize

Collaborate and create

Tip for the Teachers:

This group activity will be performed on Adobe Express Students' School Account. Upon completing the activity, the students will be required to copy the URL and paste it at the provided location under the online course and submit it. You are requested to divide the students into groups of 3.

Tip for the Students:

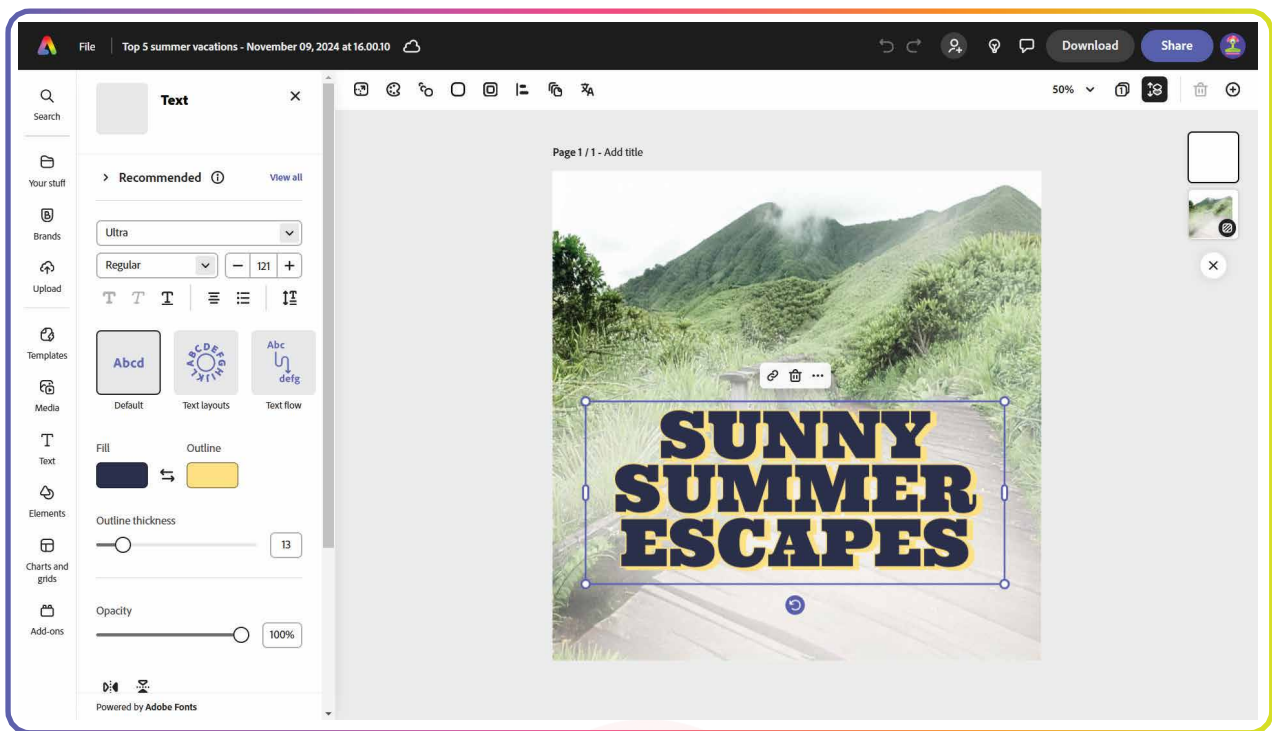

This is a group activity with two more collaborators. Your teacher will guide you to add collaborators into your assignment on Adobe Express. Each student will have to login into their Adobe Express school account. Do not forget to submit the assignment to complete the course.

Activity 3.4.2 : Typography Design Challenge

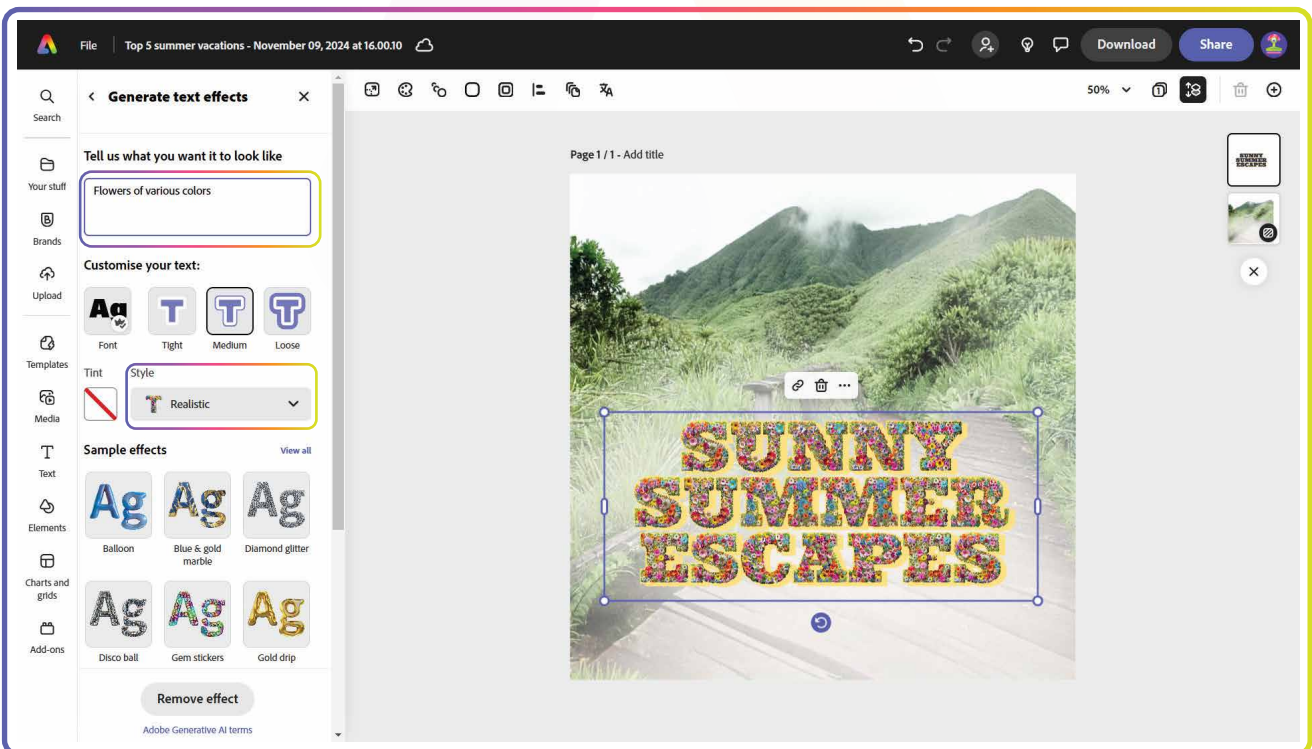

Objective: To create text effects using Generative AI prompts, customize pre-defined styles, and apply styles and textures to text using prompts in Adobe Express, while collaborating with peers.

Instructions:

- Form small groups of learners, ensuring each group has access to Adobe Express School account on their devices.
- Pick up a Theme for creating a collage in collaboration for example, 'Back to School' ; 'Summer Vacation'; 'Exam Time', 'Field Trip Day', 'National Handloom Week', etc.

- Choose a theme or concept for your typography design as a group. This could be a word, phrase, or quote that inspires all members or reflects a specific idea or emotion.
- Assign specific roles or tasks to each group member. For example, one member could focus on exploring pre-defined text styles, another on applying styles and textures using prompts, and another on refining the final design.

- Independently, explore and experiment with your assigned tasks in Adobe Express. Use the chosen theme or concept as a guide for your design decisions.
- Once you have individually completed your tasks, come together as a group to review and discuss your work. Share your designs with one another and provide feedback and suggestions for improvement.
- Collaboratively select the most impactful and visually appealing elements from each group member's work to incorporate into the final typography design banner.
- Combine the customized pre-defined styles and text effects generated using prompts to create a cohesive typography design that aligns with your chosen theme or concept.
- Spend time refining and fine-tuning the typography design as a group until you are all satisfied with the result.
- Once your typography design is complete, you can also click on **'Share'**, **'View only Link'** and **'Create a Link'** to publish your creation.
- **Copy the URL and paste it** onto the online learning platform and hit submit for submitting the collaborative assignment.
